BE PART OF SOMETHING BIGGER

With our core mission being to provide care to some of the most medically underserved and vulnerable parts of the world, we offer over 100 different career paths in a variety of specialties. As a member of the Army, you will have opportunities to be a leader, to learn, to grow and more in the diverse military healthcare environment. As you practice medicine, you will have access to the latest technology and cutting-edge training.

AT THE FOREFRONT OF MEDICINE

The U.S. Army has trained over 500,000 health care professionals. In just three years, we trained the nation’s first Black Army medical officer.

As a part of this elite team, you will explore and pioneer ways that make a big impact.

CUTTING-EDGE TECHNOLOGY

From standard care to state-of-the-art technologies, the U.S. Army medical professionals develop technologies and tools that reduce recovery times and increase quality of life for patients. Our medical facilities are some of the most advanced in the world, and our medical professionals are leaders in research and development.

Continued growth and opportunity

In the world of U.S. Army health careers, you will be connected to one of the world’s largest, most funded and high-tech health care networks.

Army medical professionals provide unique opportunities to be a leader, to learn, to grow and more in the diverse military healthcare environment. As you practice medicine, you will have access to the latest technology and cutting-edge training.

PRACTICE

With over 100 professional health care career paths, you can practice in your chosen area of medicine with continued support from our team of top-tier medical professionals.

U.S. Army doctors practice without the usual commercial constraints, so you can focus on what matters most: your patient’s health.

INNOVATE

Perfect your specialty and push the boundaries of your field with the support of a team focused on research, development and collaboration.

The Army gives you access to the latest medical tools and the healthiest pioneering new medical techniques and treatments.

EDUCATE

Even after service is finished, you’ll continue to be a leader, educator and healthcare advocate.

The U.S. Army health care system serves as a cornerstone of medical research, education, service, and support for you to share your expertise and lead others without the financial burdens.
