

LAB CREDITS INCLUDED in BIOLOGY COURSES

The following is a list of major-level biology courses with integrated laboratory components that are not readily apparent from the name of the course. The number of hours of laboratory credit given as partial fulfillment of the Biology laboratory requirement is indicated for each course. Biology courses numbered greater than 400 and with the word “laboratory” as part of the course title may also be used to fulfill the requirement.

BIOL			
Course #	Course Name	Total Credits	Lab Credits
413	History and Diversity of Organisms*	3	1
510	Comparative Anatomy	5	3
533	Biology of Fungi	4	1
540	General Invertebrate Zoology	4	2
545	Evolution of Development	5	3
592/792	Ichthyology	4	1
593	Ornithology	3	1
603	Systematic Botany	3	1
608	Developmental Plant Anatomy	4	2
708	External Morphology of Insects	4	2
711	Insect Systematics	4	2
795	Biology of Amphibians	3	1
796	Biology of Reptiles	3	1
841	Biometry I	5	1

* The 1 lab credit hour would apply to major elective hours only if BIOL 413 is not specifically required for the major.
